Clean your bike while passing...

Rent: You want to see a special highlight for your customers, shine for the open day with a new idea, take part in the city festival or have a bigger bicycle event near? Use cycleWASH as a marketing tool. Rent a cycleWASH machine for one or more days. The machine can be branded individually for the occasion.

Buy: You have a bicycle repair shop and want to impress your customers through exciting new service offering? Why not offer bicycle cleaning service? With a clean bike you can locate damage easier and faster than on a dirty bike. The Customers appreciate this and will gladly pay for a bicycle cycling service. Returning happy customers will also be looking for other services increasing your sales / profits!

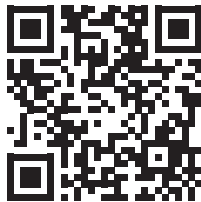

Financing: You want a quick and easy financing solution? With our financing partner we can offer flexible leasing conditions starting from 145.00 € P.M. with suitable financing periods.

Become a cycleWASH operator: For a low monthly fee, you can expand your range of services at your premises through a cycleWASH machine without major financial or human resources Investment? Become Operator: You will receive a brand new cycleWASH machine, management support (inventory management, accounting, training, equipment (cleaning and cleaning agent) and spare parts (if necessary).

Your customers use self-service system comfortably on the Internet using their smart phones. The customer scans the QR Code attached to the machine and pays the fees via PayPal-me (known and proven payment system of ebay) and the cycleWASH machine is immediately activated for use. Alternatively, the customer can activate the cycleWASH machine using other point of sales systems e.g. coin or token acceptor.

We can also offer loyalty programs, subscription or pre-paid cards on our online platform. The customer must register online and receives an individual QR code for their subscription pre-paid tickets. With this code the customer can use the machine on site.

We plan to extend our partner network throughout Europe and beyond.

...environmentally friendly in 3-5 Minuten

cycleWASH can be quickly and easily transported in a mid-size estate car for events. A power connector and a few buckets of water for the first filling and off you go. The wash water is constantly filtered and re-circulated; environmentally friendly with low operating costs.
