

mini BASIC

The cleaning station

With cycleWASH mini BASIC you get a complete cleaning station for manual bicycle washing. It can also be combined with a cycleWASH mini DUO and then used for pre-cleaning & air-drying.

BASIC

Environmentally friendly and thorough manual bicycle cleaning for the workshop and events, suitable for pre-cleaning and main washing

Cleaning process:

The bike is cleaned manually with the Clean & Dry Gun

UNO

The cycleWASH mini UNO offers an introduction to semi-automatic bicycle washing with one-sided rotating brushes.

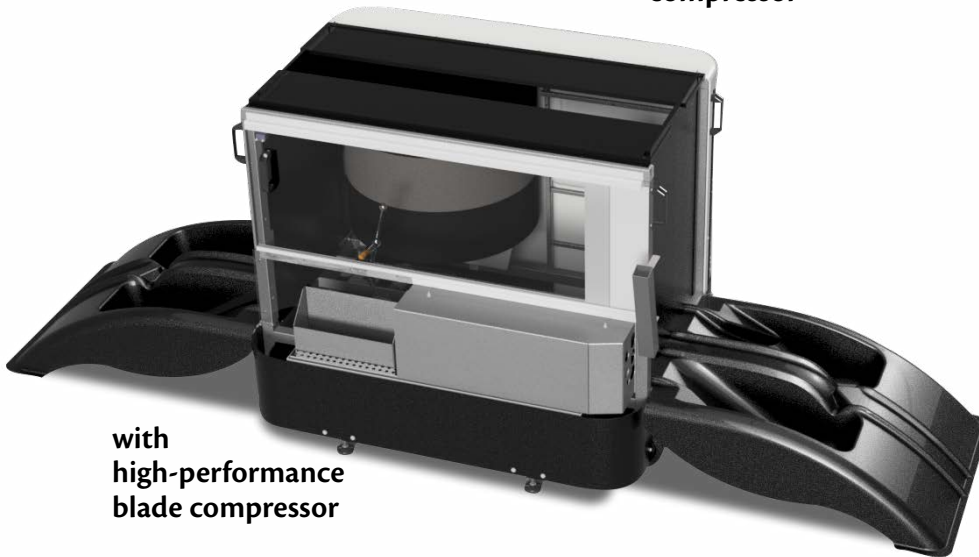

Cleaning process:

The bike is cleaned from one side by manually (semi-automatically) pushing the bike along the rotating brush. The bike is then turned and pushed through the system from the other side.

mini UNO

without
compressor

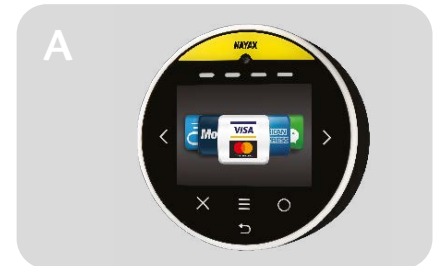

with
high-performance
blade compressor
