The Product Family

cycleWASH bicycle washing systems — Unique on the market!

Best-Practice Examples

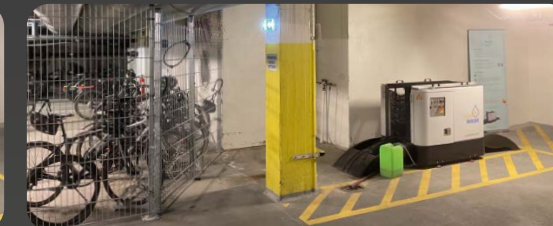

Bike Rooms

CarWash Facilities

Parking Garages

Expressive appearance!

The prominent placement of cycleWASH bicycle washing systems at the point of sale strengthens the public image of your company and significantly increases media interest. Show that you have recognized the spirit of the times and expand your range of services for a growing number of bicycles and e-bikes. The traffic revolution is here!

Events

Hotels & Companies

Bicycle Fleets & Bike Sharing

mini STATION

The manual cleaning station

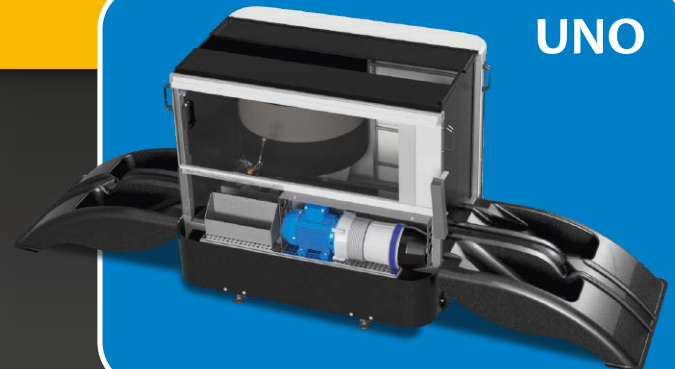

Compact enough to be transported on bike lanes!

mini SERIES

Modular. Upgrade any time.

For example, start with a mini STATION and later upgrade to a mini UNO or DUO.

Go

The most compact bike washing system

cycleWASH Robotics presents:

Pro Fully automatic
bicycle cleaning & drying

Black

Silver-Black

Platinum

An AI assisted washing system

Intelligent

Highly automated

Environmentally friendly

Based on the type of bike, we use Artificial Intelligence to adjust the cleaning parameters of the machine such as time and amount of detergent. Thereby, the cycleWASH Pro achieves excellent cleaning results while only using a minimum of water and energy.

	 <p>mini STATION</p>	 <p>Go</p>	 <p>Pro</p>
	The manual cleaning station.	The most compact bike washing system!	Fully automatic cleaning robot.
Dimensions 	Length x Width x Height 146 x 103 x 122 cm (without ramps)	Length x Width x Height 110 x 115 x 120 cm (without ramps)	Length x Width x Height 237 x 126 x 124 cm (without ramps & handlebar bracket)
Space requirement 	4 x 3 m	3 x 3 m	6 x 4 m
Weight 	approx. 100 kg	140 – 180 kg	540 – 650 kg
Automation 	Manual cleaning with Clean & Dry Gun	semi-automatic cleaning in one pass	fully automatic cleaning
Water 	approx. 1 liter per wash	Fresh water connection in STANDARD mode Water consumption comparable to high pressure cleaner Closed water circuit in ECO mode Average water consumption of 500 ml per wash	Fresh water connection in STANDARD mode Water consumption comparable to high pressure cleaner Closed water circuit in ECO mode Average water consumption of 500 ml per wash
Energy 	Peak power 1.6 – 3.6 kVA depending on the equipment	Peak power 0.6 kVA – 3.6 kVA depending on the equipment	Peak power 2.4 kVA – 5 kVA depending on the equipment
equipment included 	* integrated high-performance compressor	* wheel rotation unit with spring-loaded brushes for cleaning of rims and tires * full stainless steel design (Platinum)	* wheel rotation unit with spring-loaded brushes for cleaning of rims and tires
optional 	* Power supply via solar power (inverter, charger, external lithium batteries) * contactless payment system (Apple Pay, Google Pay, Visa, Master, Giro, EC) * Remote monitoring of the machine * upgradable to mini DUO semi-automatic cleaning with rotating brushes & spraying nozzles incl. SMART ultrasonic cleaning for tires and rims 	* Power supply via solar power (inverter, charger, external lithium batteries) * contactless payment system (Apple Pay, Google Pay, Visa, Master, Giro, EC) * Remote monitoring of the machine * integrated high-performance compressor	* Power supply via solar power (inverter, charger, lithium batteries integrated) * contactless payment system * Remote monitoring of the machine * patented 1.2 kW SMART ultrasonic cleaning for tires and rims * integrated high-performance compressor * full stainless steel design (Platinum) * patented drying with 8 integrated energy-efficient low-pressure blowers
* only with cycleWASH			

cycleWASH POINT

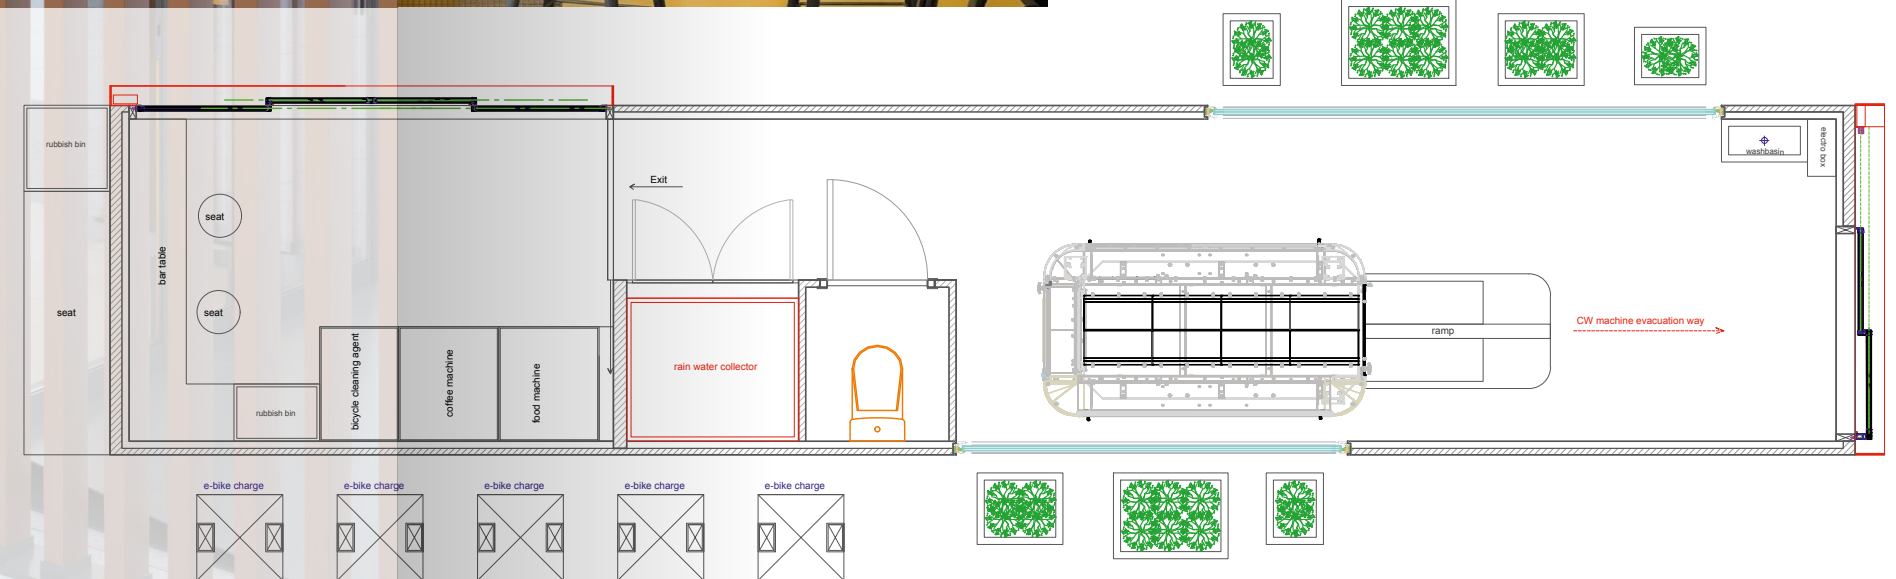

Service
Meeting
Parking

With our **cycleWASH POINTs** we would like to establish modern spaces for the needs of all bicycle enthusiasts in urban areas. Mobility hubs in cities are particularly suitable as location.

Thanks to the modular structure, the **cycleWASH POINTs** can be specifically adapted to the needs at the location: In addition to the bicycle wash, in a **Service POINT** repair and maintenance are also available. The **Meeting POINT** combines the cycleWASH bike wash with a café. The **Parking POINT** variant offers secure bicycle parking facilities and is therefore particularly suitable for Park & Ride areas of public transport.

Additional features such as **energy supply via a solar system**, **rainwater harvesting** and **e-bike charging** stations complete the mobility solution.

The cycleWASH POINTs are available in 20 feet and 40 feet container sizes.

Care products

Wellness for your bike!

For your bike only the best!

All our care products are based on natural substances and are biodegradable. We have carefully tailored our care range to the needs of the discerning bicycle enthusiast. Cleaning, degreasing, protection and care: Our products cover all requirements. We recommend the care products both, in combination with our bike washers and for the end customer in home use.

Saubermann

The organic shampoo for the complete cleaning of your bike. our innovative cleaning foam offers a high release force; ideal for heavily soiled frames, tires and rims. Dirt, sludge and chain oil splashes can be removed in an environmentally friendly manner. Saubermann can be applied to lacquered and unpainted aluminium, carbon, plastic, stainless steel and powder-coated surfaces.

label-free • also suitable for sensitive materials
fine foaming • contains no fragrances and dyes

Pflegekraft

Our organic multi-talent: Due to the oily and acid-free composition, Pflegekraft cleans and lubricates at the same time. In addition to the application to bicycle chains and sprockets, greasy dirt can also be removed on frames, pedals or suspension forks. Pflegekraft can be applied to lacquered and unpainted aluminium, carbon, stainless steel, chrome, plastic and powder-coated surfaces.

label-free • also suitable for pedelecs & e-bikes
silicone-free and productive • protects against corrosion
contains no fragrances and dyes

Schutzschild

water-repellent care oil – protects against new contamination
fertile & material-compatible on glossy and matt surfaces
also suitable for pedelecs & e-bikes
label-free on the basis of plant ingredients
can be used for frames and wheels
also suitable for tire gloss

KettenFett

lubricates your chain and other moving parts
high lubrication & creeping effect
can also be used for suspension forks, bowden cables & sprockets
optimal corrosion and wear protection
also suitable for pedelecs & e-bikes

Further information can be found on our website at cyclewash.com/Care-Products
Subject to changes.

FettFrei

Our effective organic degreaser; Deep cleaning and degreasing of your bike chain guaranteed! The good stuff is biodegradable, solvent-free, phosphate-free and therefore also label-free. With a special aluminium protection formula, FettFrei also cleans sensitive materials such as aluminium, brass and non-ferrous metal.

suitable for all surfaces • based on renewable raw materials
extreme dissolving force against stubborn grease, dirt & wax
also suitable for pedelecs & e-bikes

Perlator

Also available from cycleWASH:
Perlator – our magical triple finisher; highly concentrated product with extra accelerated drying effect. Perlator smells wonderfully fruity and helps to achieve a high-quality shine after washing.

For professional use only.
